New Gate Barriers

Safety and community security are top priority for us; as a routine all security points are checked to access effectiveness and the needful is done. As part of this exercise- the gate barriers at Al Majara have been replaced with newer ones.

Fancy Additions

The recreational room at the community is a favorite at Dubai Marina Towers. A place where residents can unwind, bond and have some competitive games. To make the place more interesting, we got some new additions in here like an air hockey and a soccer table. Looks like this summer is going to be a fun one here at DMT.

New EV Chargers Installed

Dubai Marina in its pledge to promote and support sustainability and green living, will install new EV chargers at the roundabout by Marina Promenade. Hope more residents find this convenient and we see more energy efficient vehicles in the community.

The Holy Month of Ramadan

The ninth month of the Islamic calendar considered the blessed period is observed with fasting and devotion by Muslims all over the world. Dubai Marina's community roads were adorned with beautiful lighting to celebrate this auspicious time of the year. And to honor the spirit of the season, the community distributed 1450 Iftar meals every day to service providers and delivery boys in the area to break their fasts.

Earth Hour

This year on 25th March, Dubai Marina observed Earth Hour with millions across the globe. All non-essential lights were switched off from 8 PM to 9 PM in the community and common areas around. We as a community, participated and observed this global movement for energy saving to show support for climate change and to promote sustainable community living.

Is Your Home, Holiday Ready?

As you pack your bags for the upcoming holiday season, go through these pointers to ensure that your home is holiday safe.

Secure all entryways, including the windows and balcony.

Unplug electrical items to avoid fire risks.

Secure wardrobes and other valuable items

Deposit your money and valuables in a bank safe box.

Make sure water taps and electricity switches are off.

Leave your home clean and tidy to avoid pest infestation.

Check for any gas leaks before you lock up.

Keep your air-conditioning at a minimal setting to avoid any humidity or mold issues while you are away.

Put your newspaper subscriptions on hold till you are back.

Leave your contact details with a trusted friend in case of an emergency. Send us an email and we shall notify the community security on the same.

Do These Belong to You?

Do you have things lying outside your apartment in the common areas? Or have you left the stroller and kids bike at the parking bay? This is not a good idea and let's see why:

Affects the community aesthetics and lowers the overall appeal of the community.

A hazard in case there is an emergency and evacuation is required.

More prone to theft and damage of your items.

Can be tripping hazard for other residents.

Major obstruction in case emergency services is trying to gain access.

Fight the Pests Down

Pest management is essential, especially when your dear ones and home is concerned. Health issues and property damage can be prevented with regular pest control. No matter how often we conduct regular fogging in the common areas, you must still maintain regular pest control inside your home and here is why:

Reduce allergies - Pests cause allergies, asthma, and other respiratory issues.

Protect property - Pest infestations cause costly repairs to your assets, especially to the fabric components of furniture.

Food supply - Pests contaminate food and affect you, your family and your pet's health.

Illness and diseases - Pests can cause a host of health problems like leprosy, skin infections, food poisoning, etc.

A Glass of Water Please!

Summers in UAE is notorious, especially with warm and humid days of July and August! We know the air condition is your best friend in summer, but let's not forget who really should be your bff for this season. As the heat and humidity rises, you should drink 3 to 4 litres of water in a day. Here are some tips and tricks to ensure that you are well hydrated and stay cool and fresh this summer.

- **Don't wait to feel the thirst**

Because even the slightest cue for thirst is a sign that you are getting dehydrated.

- **Flavor your water**

If plain water isn't to your liking, try adding chopped fruits like lemons, oranges, apple slices, a bunch of mint leaves or a stick of cinnamon to add some zest to your drink.

- **Eat water-rich fruits & vegetables**

Watermelon, strawberries, cantaloupes, peaches and pineapples are fruits with high-water content. While some vegetables with high water content include cucumbers, radish, celery, tomatoes and so on. There are also great snacks to munch on or you can whip them together for a refreshing bowl of salad, for lunch.

- **Stay indoors when it's too hot**

When the weather is hot, especially from 11 AM to 4 PM, it is better to stay indoors or plan indoor activities. Being in the heat can cause dehydration and heat stroke. If you must be outdoors at these times, ensure you keep sipping on water constantly.

- **Set alarms to remind you to drink**

This is one of the best ways to ensure that you are getting your daily quota of water and remain hydrated.

Mid-day Breaks

Construction workers in the UAE will receive a respite from direct sunlight with a mid-day work ban from mid-June to September, when the summer is at its peak. It will give them some relief from the hot sun and prevent heat exhaustion.

Outdoor community service providers and contractors will also take this mandated mid-day break. This will be the 19th year that the Mid-day Break campaign is being implemented, and it has become a key feature in ensuring the safety of workers during the hot summer months.

Proper Waste Disposal Etiquette

Littering in the common areas is unsightly, smelly and an open invitation to pest infestation. While disposing off your garbage:

Ensure waste bags are tied and placed inside the garbage chute.

Reach out to the security or a team member from the community management to get assistance to replace any damaged bins that you notice.

Double bag if you find the trash bag is leaking or too heavy.

Green waste, electronics & hazardous materials do not belong with household trash.

Ensure that you are segregating your waste and properly disposing in the correct recycling bins located at your community.

Don't Let the Water Drip

A popular adage is that we need water; but in the current times-water could use some help from us! The Earth is made up of 97% of water, but only 3% of it is fresh water. Mindful usage and conservation are our only way forward. Here are some simple tips to reduce water wastage in your homes.

Treat the leaks regularly. What looks like a drop dripping off is a lot of water being wasted.

Run the washing machine and dish washer only when it's a full load. This saves on water as well as energy.

Switch to a 'low flow' shower head. This can help reduce your water consumption by almost 50%. Thank us when you see a reduced water bill!

Switch faucets off when not in use. The water running while you brush your teeth is gallons of water being wasted!

Reuse water where possible. Collect the water used to wash vegetables, and rice and use it to water the plants. The water used to rinse rice is rich in minerals and is beneficial for your plants too.

Choose your plants wisely. There are some varieties that are low maintenance such as the bougainvillea, date palm and tropical hibiscus. They are beautiful additions to your garden and don't need much watering too.

Best out of **WASTE!**

There is always a couple of bottle caps and yoghurt cans laying around; why not do something creative with it? We recently celebrated the World Environment Day; so, let's take a pledge to reduce the waste we put out. Get creative, look around, use any recyclable material and create something beautiful that can be used as décor.

Send in pictures of your creations, along with your name, contact details and home address to events@ecm.ae by 31st July.

From the Resident's Desk

Crystal Hanna is an Early Childhood Principal and a happy resident of Arabian Ranches. She shares with us some summer tips to keep our young residents busy and to ensure that this Summer of 2023 is an enriching one.

1. Maintain a Journal

Journaling is a fantastic way for children to capture and reflect on their summer experiences. Give them a notebook and let them fill it with summer stories and memories.

2. Read, Read, Read

Reading is one of the most important skills children can have! Reading daily can be done independently or with other family members. For our youngest learners, looking at picture books are great to awaken their imagination and curiosity.

3. Using their Creativity

Encourage children to make something using everyday items, such as cardboard boxes, paper plates, or popsicle sticks. You can provide them with materials and ask them to create something with their ideas. Send us their creations at events@ecm.ae and we will feature it in the upcoming newsletter.

4. Unstructured Child Play Time

Unstructured playtime is essential for children's development, as it allows them to explore their interests and develop social and emotional skills. This could include engaging in imaginative play, playing with toys or exploring nature. Make sure the kids are always playing in a secure and supervised environment.

5. A House Chore a Day

Assigning a daily house chore is a wonderful way to teach children about responsibility. Simple tasks like setting the table, watering plants, or making their bed can make them feel like they are responsible and are an important part of the family.

6. Back to School Transition

The change from a relaxed summer schedule to a structured school routine can be difficult for them, but there are ways to make the transition smoother. One way is gradually adjusting bedtime and wake-up time to align with the school schedule a few weeks before the start of the school term.
